OUR PROJECT

PROGRAMME DIRECTOR

Establish a relationship between parents and the school (clarification) - meet and/or create presentations/evolution reports.

Follow up closely with the aim of facilitating integration.

PORTUGALMENTE

The objective is to promote the integration of students and the use of the Portuguese language in different contexts.

Involve them in everyday situations, in which students are exposed to the Portuguese language and are challenged to use it.

Examples: Supermarket, following recipes in the Colégio do Vale kitchen, interacting with younger students.

OUR PROJECT

A SCHOOL OF EVOLUTION

The success of our foreign students in learning Portuguese is a testament to the effectiveness of our language program. Many students come to our school with little to no knowledge of the language, but with hard work and determination, they are able to communicate fluently in Portuguese in a short amount of time.

AN INTEGRATION OF CULTURES, A FUSION OF LANGUAGES

We understand the challenges that come with learning a new language and culture, which is why we offer additional language support and resources to help our international students thrive.

Our dedicated team of teachers and staff are committed to creating a supportive and inclusive environment where all students feel valued and respected. From language immersion programs to cultural exchange activities, we strive to foster a sense of belonging and camaraderie among our diverse student body.
